

Viva la revolution – agreed next steps for advancing WASH in health care facilities post Zambia

1. Share meeting materials

- learning lab summary and tools (September 2019)
- meeting summary, country commitments and collective areas for action (Oct 2019)

2. Spark further action-help grow a movement

- Regional events (EURO-Nov 2019; SEARO-Jan 2020)
- WASH in HCF event at World Health Assembly 2020
- Engage in key health events (quality health systems, infection prevention control, midwifery, antimicrobial resistance, climate)
- Online discussions, podcasts, webinars, etc (ongoing, starting now!)
- Continued focused, collective efforts (e.g. on situational analyses, research)

3. Hold countries and partners accountable

- Publish country and partner tracker snapshot (May 2020)
- WHO/UNICEF Joint Monitoring Programme global update in 2020
- Publish more detailed update for World Health Assembly (May 2021)

Viva la revolution-next steps, contin

4. Offer technical and country support

- WASH FIT regional training (SEARO), climate addendum, additional global trainers
- support for national roundtables, elaboration and implementation of costed plans
- online course for WASH in HCF (UNICEF-2020)
- Investment case for WASH in HCF (2020)

5. Raise profile, secure more investments

- Donor roundtable with health and WASH
- Ministries of finance/Sanitation and Water for All
- Engage new donors (e.g. Global fund)

6. Strengthen and evaluate advisory group

- Include countries and more health partners
- Focus engagement around key events and products

Let the revolution begin!

A movement is a group of people with a shared purpose who create change together. It is made up of:

A strong pipeline of leaders

Powerful grassroots support

Solid partnerships

A shared political goal and plan for the future
