World Health Organization   unicef   mWater

Leave paper behind

Why go digital?

▸ Free the data locked in paper forms

▸ Task shifting to frontline workers

▸ Automate analysis and visualization of indicators

▸ Communicate in real time for problem reporting and resolution

▸ Access open data for accountability and public awareness

▸ Share data across organizations and sectors

Key goals for WASH FIT Mobile

▸Build on existing frameworks

▸Bridge WASH and Health sectors

▸Sound fundamentals but still flexible

▸Scalable from individual facility to regional offices and collaborations
